INDEX
TO BIBLIOGRAPHY OF
Scientific and Industrial Reports

Vol. II January–June 1949 Nos. 1–6

UNITED STATES DEPARTMENT OF COMMERCE

US OFFICE OF TECHNICAL SERVICES

This Index is a key to the material contained in the reports of the Office of Technical Services. It makes available a ready reference to the abstracts contained in volume 1 of the Bibliography of Scientific and Industrial Reports and covers all reports listed in the 25 issues from January 11 to June 28, 1946, inclusive.

JUN 28 1949

- "P. B. No." refers to the number assigned to the report by this Office (formerly known as the Publication Board). "Page No." refers to the number of the page in the Bibliography where an abstract of the report may be found.
- Most large public libraries have complete files of the Bibliography for consultation. Complete directions for ordering the reports are contained in each issue of the Bibliography.
- The reports indexed have been received from civil and military agencies of the United States Government and from cooperating foreign governments. Many of the reports cover information captured in enemy countries. Secrecy restrictions on all reports listed have been lifted.
